Thursday 11h June (No.34)

A message from Miss Hough

Computing is a core part of everyday life, and, at Newtown, we work exceptionally hard to ensure that all children develop the knowledge, skills and confidence they need to thrive in an increasingly digital world. Throughout their time at school, children are given regular opportunities to use a wide range of software and technology. This includes developing their proficiency with Microsoft Word, PowerPoint and Excel, as well as exploring more creative aspects of computing through moviemaking, animation and programming projects. By building these skills from an early age, we help prepare children for future learning and the ever-changing technological world around them.

On Monday, our Key Stage 2 pupils took part in an exciting and engaging computing workshop delivered by Jess from EKO. The session focused on algorithms – the step-by-step instructions that computers and robots follow to complete tasks. Jess began by helping the children understand how algorithms are used in everyday life before introducing them to programmable robots.

The children worked collaboratively to complete a special space-themed mission. They designed and built their own rocket ships before programming their robots to travel across a map, navigate obstacles and safely return the rockets to their home base. To achieve this, pupils had to carefully plan, test and refine the sequence of commands they entered, demonstrating resilience and problem-solving skills when things did not go exactly as expected.

Safeguarding

INCLUSIVE Wiltshire

Inclusive Wiltshire is a new approach to providing activities for children and young people with additional needs and Special Educational Needs and Disabilities (SEND). Based on feedback from parents and carers, activities are easy to access through these main options:

- Community Activities (ages 0 to 25) - a range of inclusive local activities
- Activity Payment (ages 6 to 18) - an annual payment of £140 for eligible children and young people
- Activity Plus (ages 8 to 16) - extra support for eligible children and young people
- Activity Extra (ages 6 to 18) - enhanced support through Barnardo's for eligible children and young people with more complex needs

Thanks for your feedback and for your patience as we continue to develop Inclusive Wiltshire for our SEND families. Your feedback is helping us build on what's working well, and we look forward to offering more activities and opportunities as the scheme continues to grow.
