Thursday 16th October (No. 7)

A message from Miss Fisher

It is always one of my favourite times of year watching the leaves change into beautiful autumnal colours and watching the children crunching them beneath their feet. Last week, a small group of children, from all ages, collaborated to create 'leaf art' in the playground. Libby showed great leadership when encouraging her team to get involved and showed great kindness towards them. Autumn really is the season for kindness and harvest really embeds that message.

Bringing our school community together is an important part of school life. On Monday morning, we proudly shared with our friends and families our harvest learning that has taken place within school over the last week. The staff and I were all incredibly proud of the children and their singing was breathtaking. Here are a few photos of the lovely learning that was shared and also a special message from Mrs Dicks.

What a fantastic donation from Newtown's Harvest Festival!

We would like to say a very big thank you to every pupil, carer and the extended community who has contributed to this generous donation. Every item will be used in either making up food packs, making hot meals or offering extras to go to the more vulnerable and homeless friends we help.

Thank you.

From Mrs Dicks and all the Helping the Homeless team

Safeguarding

As you know, coughs and colds are a common part of childhood, especially during the winter. Most of these infections are caused by viruses and children recover quickly with a bit of rest and paracetamol. However, many parents of young children can be very worried when their children are unwwell and would welcome support and guidance on what to do and when to seek help.

We are writing to inform you about a simple tool that can help navigate parents through these worries. The 'Caring for children with cough' leaflet was produced by researchers at the University of Bristol after extensive work with parents. It explains what parents should do when looking after a child with a cough and when parents should take their child to see a doctor. This leaflet is in routine use by local NHS services.
